

Our Mission

Prophet One helps companies achieve operational excellence by implementing tailored business and technology solutions which result in a measurable, significant and sustained contribution to their overall success.

The Benefit of Your Prophet One Relationship

- Comprehensive, Solutions Based Approach
- Alignment of Enterprise Strategies with Business & Technology Solutions
- Significant & Measurable Results
- Continuous Improvement & Sustained Performance
- Accelerated Return on Investment

Continuous Improvement

Prophet One's focus is to help clients increase shareholder value by developing high-performance teams, improving profitability and accelerating growth. We do this by engaging organizations in a business transformation process that moves them through the critical stages of change.

ERP Solutions

Prophet One has significant competency across the spectrum of ERP applications and business processes. Packages supported include SAP, JDE, Oracle, and Microsoft. Prophet One consultants design solutions using a business process flow approach, ensuring that your ERP application directly supports your company's own unique business processes – while also integrating data across corporate functions for a more holistic view of the company.

Managed Services

Mid-market businesses have many of the same IT support requirements that Fortune 500 companies do. However, many mid-market businesses don't have the size necessary to afford the premium, world-class IT support solutions that the Fortune 500 can. By aggregating our customer base, we are able to obtain these premium services at affordable pricing. Tech Support Alliance, a division of Prophet One, focuses on providing mid-market business world-class IT support such as 24-hour domestic help desk, desk side assistance, server support, preventative maintenance and asset/software management.

Technology Solutions

At Prophet One we evaluate, design, build, and integrate applications and strategic technologies for clients to take full advantage of business initiatives. We also provide consulting services to help increase and enhance collaboration, automation and simplification across the whole enterprise.

Core Values

At Prophet One we earn the respect of our clients by adhering to our values, beliefs, behaviors and business practices.

- Dedicated to producing impactful results exceeding the expectations of our clients
- Promote productivity through teamwork, collaboration and common goals
- "Lead from behind" in order to assure knowledge transfer and client self-sufficiency
- Responsible and accountable – always easy to work with
- There is no substitute for honesty, integrity and open communications
- Committed to the personal and professional development of our employees
